ACCOMMODATIONS

Leisureworld offers a variety of accommodation options. People living in our Leisureworld homes pay a fee for accommodation that is based on the type or style of room they reside in. The Ministry of Health and Long-Term Care sets the room rates for all long-term care homes in Ontario.

Preferred Accommodation is the term used to describe private rooms. Semi-Private, Basic or Standard Accommodation are terms used to describe shared rooms.

Please note that the features of a private, semi-private or basic/standard accommodation will vary according to when the particular home was constructed or renovated.

Preferred or Private Accommodation

The advantages of a preferred or private room are many. If you like to read late at night, listen to your favorite music early in the morning or prefer your own private bathroom, a private room is for you or your loved one. And best of all, family members can visit and stay as long as they wish in the privacy of your own room.

Semi Private or Basic/ Standard Accommodation

Semi-private, basic or standard accommodation are terms used to describe shared accommodation. Each one of our Leisureworld homes does its best to match up individuals (in terms of gender) and with people who have a variety of things in common.

In selecting any of the above accommodation options, visitors and family members are encouraged to take a tour of the home and see the different types of accommodation that are available.

We would be more than happy to provide you with a tour of any of our Leisureworld homes.
